

## COC Commitment Statement

Since 2009, TORLYS has been committed to the Chain of Custody, Verification and Certification of Forest Stewardship Council® (FSC®) Values from FSC Procedure FSC-PRO-20-001 V1-0 EN, Programme for the Endorsement of Forest Certification (PEFC™) ST 2002:2013 Chain of Custody of Forest Based Products, and the Sustainable Forestry Initiative® (SFI®) 2015-2019 Standard based on Section 4, Chain of Custody.

TORLYS Product Development Coordinator has the responsibility for full compliance to the above Chain of Custody Standards, holding training sessions for all TORLYS staff, performing internal audits of the COC internal management thriving for continuous improvements, and is responsible for the annual renewal audits.

“As a recognition of fundamental importance of the environment and sustainability, we reduce the amount of resources needed to make our products. We offer floors that use certified cork and wood, originating from responsibly managed forests. We even encourage customers to re-use or re-purpose their TORLYS floors. At TORLYS, we’re inspired by nature in our journey to create a smaller footprint.

We urge our suppliers, our associates, and our customers to rethink the way they look at flooring too.”

~ Peter Barretto, CEO and President, TORLYS Inc.
